Citrus Scent

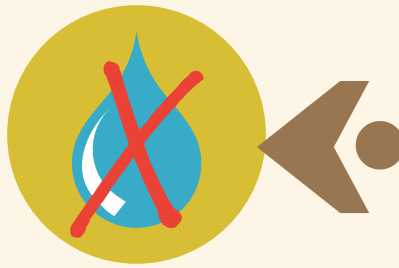

### HIGHLY CONCENTRATED

Due to its powerful formula, you only need a small amount to tackle even the toughest messes, which means every bottle lasts significantly longer, saving you money.

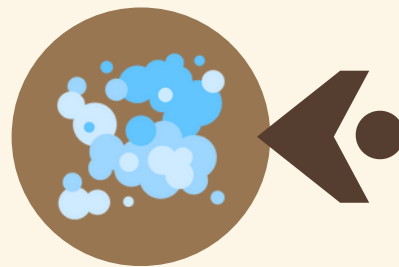

### ENVIRONMENTALLY PREFERRED

By choosing Speedy Mop, you not only ensure a clean and healthy facility or home but also contribute to a cleaner, greener world.

### RINSE - FREE

This innovative formula is rinse-free, which means that after you've applied it to your floors, there's no need to go through the time-consuming process of rinsing the floor.

### LOW FOAMING

Designed with user convenience in mind, its low-foaming formula is a testament to this commitment. The low-foaming nature of this cleaner ensures quick and effortless cleanup after you're done.

**Specially formulated to clean & preserve Filip Professional floor finishes**

 Compliant W/ LEED Certification Facilities

# Step by Step

## Mopping Instructions

1. Use dust mop or broom to remove large debris from area.
2. Ensure mop bucket and mop are clean.
3. Mix neutral floor cleaner with cold water based on level of soil (find dilution ratios on products back label)
4. Set up wet floor signs by every entrance/exit of area.
5. Beginning at the corner farthest from the exit, start mopping using a figure 8 or "S" motion.
6. Continue mopping until you reach the exit and have covered entire area.\*Note that you might have to stop half way through or whenever you notice mop water and mop are heavily soiled to switch water or mop before continuing
7. Dispose of dirty water and fully rinse mop bucket.
8. Wash microfiber mop, either by hand or in washing machine. \*Note if in washing machine, wash separate from cotton and do not use fabric softener.  
Air dry or dry on low heat mode in dryer.

## **\*Items You Will Need**

- Microfiber mop with handle
- Dust mop or broom & dust pan
- Mop bucket (preferably double sided with wringer)
- Neutral floor cleaner
- Measuring container
- Wet floor signs

## **\*More Mopping Tips**

- Use your legs and hips, not your back when mopping to prevent strain to your body.
- Wring mop out with heavy pressure, you do not want your mop to be soaking wet. Wet does not equal clean.
- Only fill your mop bucket half way to ensure you are able to lift the bucket to dispose of water without straining
